

Instructions for generating paper figures from scratch (if preprocessing is already complete, skip to step 3)

1. Run `top20feature_selection_from_data.ipynb`
 - a. Input: `cleaned_merged_data.csv` (stored on Google Cloud Platform)
 - b. Output: `top20features_data.csv`
2. Run `data_preprocess.ipynb`
 - a. Input:
 - i. `top20features_data.csv`
 - ii. `hi.csv`
 - b. Output:
 - i. `cleaned_top20features_data.csv`
 - ii. `cleaned_hi.csv`
3. Run `paper_figure.ipynb`
 - a. Input:
 - i. `cleaned_top20features_data.csv`
 - ii. `cleaned_hi.csv`
